Celosias

Presentamos la nueva colección de celosía arquitectónica de Duralmond. Un planteamiento de piezas de gran tamaño para ser aplicado en interiores y fachadas. Se pueden utilizar para conseguir profundidad, para separar ambientes, para tamizar la luz solar o simplemente para decorar interiores y exteriores, y con una gran diversidad de acabados. Los materiales empleados son duralmond de 60 mm. de grosor o tablero estratificado marino de 24 mm. de grosor.

Lattice

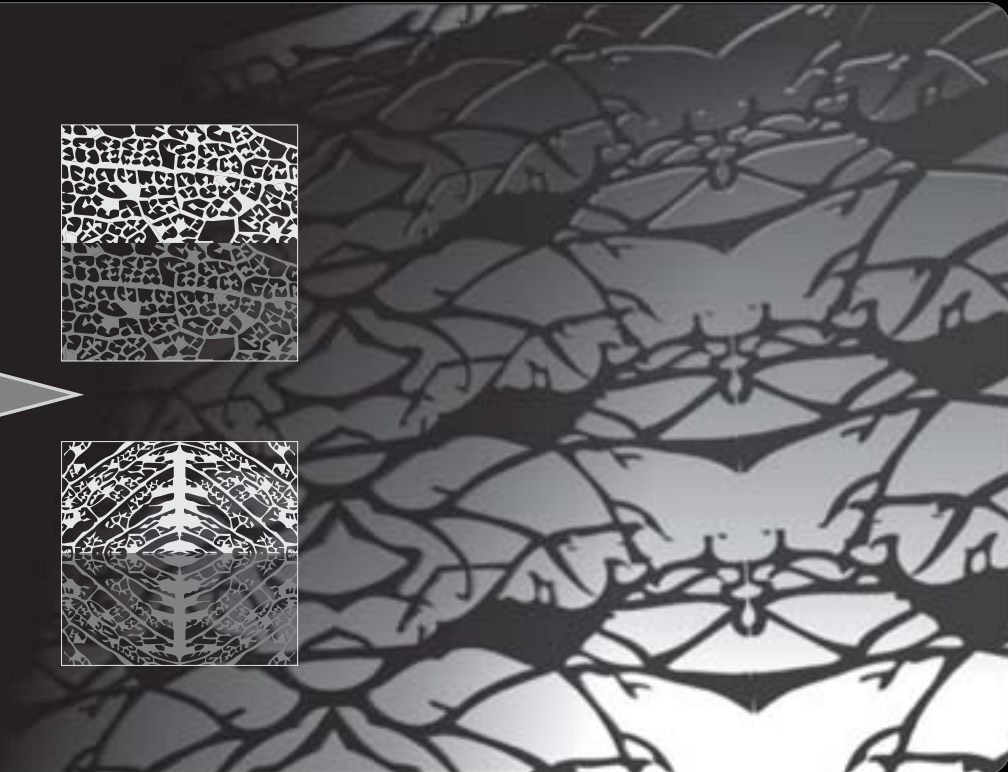

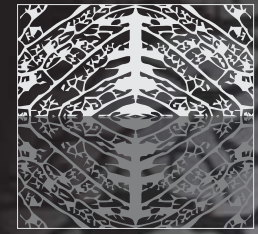

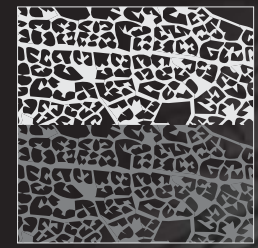

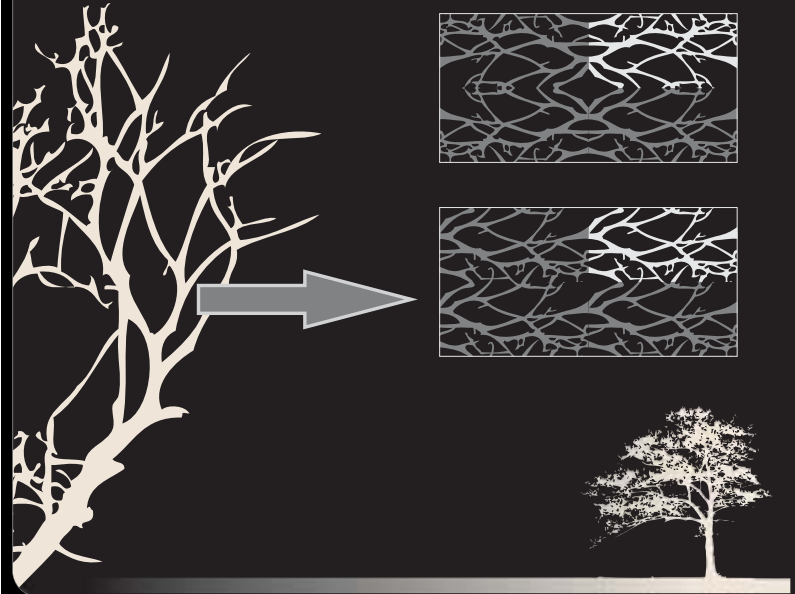

We present the new collection of lattice architecture from Duralmond. An approach using large-sized panels for both indoor and outdoor applications. A wide variety of finishing's are available and can be used to achieve more depth, to separate environments, to sift sunlight, or simply to decorate interiors and exteriors. The materials used are duralmond 60mm thick or stratified panels with a thickness of 24mm.

A medida

Espectacular trabajo realizado en el patio de un importante hotel en el Centro de Sevilla. Son proyectos que exigen un molde rígido que tiene un coste medio.

this was a spectacular job we did for the patio of a large hotel in the middle of Sevilla. These are projects which demand a rigid mould and which have an
