MANUFACTURING

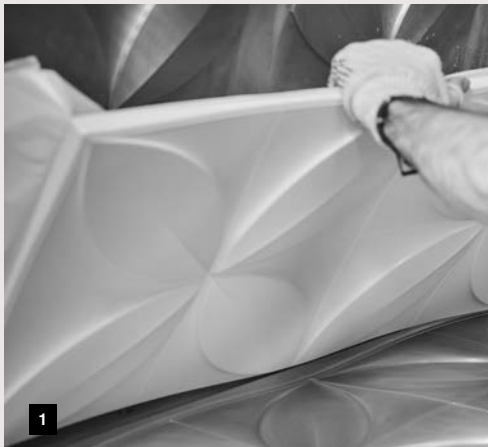

QUALITÄT UND STIL
QUALITÉ ET STYLE
KWALITEIT EN STIJL

Two manufacturing processes – two results: quality and style |

1 Foams For more elaborate, 3-dimensional forms with love for detail, we use aluminium moulds in which high-density polyurethane foam (ARSTYL®) is injected, resulting in precisely manufactured design elements particularly rich in detail or austere modern. We use this process also to produce our special FLEX mouldings as well as design elements (DOMOSTYL®) which are suitable for outdoor use.

2 Extrusion In the extrusion process, polystyrene is moulded in medium and high density to light (NOMASTYL®) or shock-resistant (WALLSTYL®) design elements. All design elements manufactured by means of extrusion are moreover waterproof and can therefore be used in damp areas without hesitation. Gluing surfaces and a primer facilitate the subsequent processing.

Whatever design elements you opt for, engineers, designers and staff are constantly working in development and production to meet the quality requirements of NOËL & MARQUET. Over 70 years of experience and a distinctly innovative spirit make the appeal, authenticity and quality of NOËL & MARQUET products simply unique.

Zwei Herstellungsverfahren – zwei Ergebnisse: Qualität & Stil |

1 Schäumen Für aufwendigere, 3-dimensionale Formen mit Liebe zum Detail, verwenden wir Aluminiumformen in welche hochverdichteter Polyurethanschaum (ARSTYL®) eingespritzt wird. Resultat sind präzise gefertigte Design-Elemente, mal besonders detailreich oder aber puristisch modern. Dieses Verfahren nutzen wir ebenfalls zur Produktion unserer speziellen FLEX Leisten sowie die, für den Außeneinsatz geeigneten, Design-Elemente (DOMOSTYL®).

2 Extrusion Im Extrusionsverfahren werden Polystyrol in mittleren und hohen Dichten zu entweder leichten (NOMASTYL®) oder stoßfesten Design Elementen (WALLSTYL®) geformt. Alle mittels Extrusion hergestellten Design Elemente sind zudem wasserresistent und somit bedenkenlos für den Einsatz in Feuchträumen geeignet. Geprägte Klebeflächen und eine Vorgrundierung erleichtern die spätere Verarbeitung.

Für welche Design-Elemente Sie sich auch entscheiden, in Entwicklung und Produktion arbeiten Ingenieure, Designer und Mitarbeiter stetig daran, den Qualitätsansprüchen von NOËL & MARQUET gerecht zu werden. Über 70 Jahre lange Erfahrung gepaart mit ausgeprägtem Innovationsgeist machen die Produkte von NOËL & MARQUET in ihrer Attraktivität, Authentizität und Qualität einzigartig.

**Deux procédés de fabrication –
deux résultats : qualité et style |**

1 Moussage Par amour du détail, nous utilisons, pour les formes en relief plus élaborées, des moules en aluminium dans lesquels est injectée de la mousse de polyuréthane haute densité (ARSTYL®). Résultat : des éléments design très précis, tantôt particulièrement riches en détails, tantôt d'un modernisme épuré. Nous utilisons le même procédé pour la production de nos profils spéciaux FLEX et pour les éléments décoratifs adaptés à l'extérieur (DOMOSTYL®).

2 Extrusion L'extrusion consiste à former des éléments design légers (NOMASTYL®) ou résistants (WALLSTYL®) à partir de polystyrène de moyenne ou de haute densité. Tous les éléments décoratifs fabriqués par extrusion sont en outre résistants à l'eau et donc parfaitement utilisables dans des pièces humides. Les surfaces de collage fraisées et la couche d'apprêt appliquée en usine facilitent la mise en œuvre ultérieure.

Quel que soit votre choix parmi les éléments décoratifs, les ingénieurs, designers et collaborateurs des départements Développement et Production veillent toujours à répondre aux exigences de qualité de la marque NOËL & MARQUET. Associer plus de 70 années d'expérience à l'esprit éminemment novateur du groupe, rend les produits NOËL & MARQUET absolument uniques par leur attrait, leur authenticité et leur qualité.

**Twee technologieën –
Twee resultaten: kwaliteit en stijl |**

1 Schuimvorming Voor vrij complexe driedimensionale vormen gebruiken wij, met een zekere liefde voor het detail, aluminium vormen waarin het polyurethaanschuim met hoge densiteit wordt geïnjecteerd (ARSTYL®). Resultaat: zeer nauwkeurig geproduceerde design-elementen, soms rijkelijk gedecoreerd, soms van een verfijnd modernisme. Wij gebruiken hetzelfde productieproces voor onze speciale FLEX-profielen en onze aangepaste design-elementen voor buiten (DOMOSTYL®).

2 Extrusie Extrusie bestaat in het produceren van lichte (NOMASTYL®) of impactbestendige design-elementen met behulp van polystyreen van gemiddelde of hoge densiteit (WALLSTYL®). Alle design-elementen die door extrusie worden gefabriceerd, zijn bestand tegen water en mogen dus gerust in bijvoorbeeld keukens of badkamers worden toegepast. De uitgefreesde lijmzones en de in de fabriek aangebrachte grondlaag vereenvoudigen het aanbrengen en overschilderen.

Welke design-elementen u ook kiest, onze departementen Ontwikkeling en Productie, onze ingenieurs, designers en medewerkers waken er altijd over dat ze volledig voldoen aan de kwaliteitseisen van het merk NOËL & MARQUET. Door onze lange ervaring - ruim 70 jaar - en de resoluut innoverende aanpak van de groep zijn de NOËL & MARQUET producten absoluut uniek door hun charme, authenticiteit en kwaliteit.

We assume responsibility |

As a family-owned company, NMC has always been aware of its responsibility for future generations. And this awareness for energy efficiency, sustainability and climate protection has meant that every step in the development, production and sale of NOËL & MARQUET design elements is checked and optimised:

- Energy from our own photovoltaic system and 100% green energy
- Our own recycling facility ensures nearly 100% recycling of waste
- Closed water circuits minimize consumption
- ISO 14001 certification – the international standard for environmental management systems
- BREEAM product declaration for all NOËL & MARQUET products (ARSTYL®, WALLSTYL®, NOMASTYL®)
- **Our NOËL & MARQUET skirtingboards have been awarded with the German quality label “Blauer Engel” as low-emission and safe to health products.**

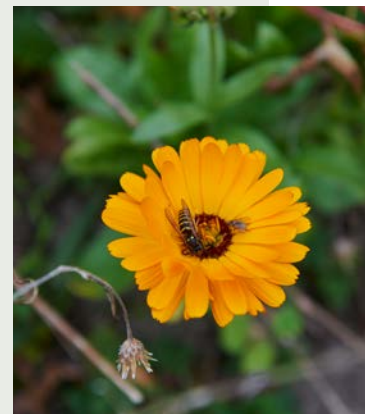

Wir übernehmen Verantwortung |

Als Familienunternehmen war sich NMC immer seiner Verantwortung für zukünftige Generationen bewusst. Und dieses Bewusstsein für Energieeffizienz, Nachhaltigkeit und Klimaschutz führt dazu, dass bei der Entwicklung, der Produktion und dem Vertrieb der NOËL & MARQUET Design Elemente jeder einzelne Schritt auf Umweltverträglichkeit überprüft und optimiert wird:

- Energie aus eigener Photovoltaikanlage und 100 % grüner Energie
- Eigene Recyclinganlage sorgt für nahezu 100 % Wiederverwertung der Abfälle
- Geschlossene Wasserkreisläufe minimieren den Verbrauch
- ISO 14001 Zertifizierung – die internationale Norm für Umwelt-Managementsysteme
- BREEAM Produktdeklaration für alle NOËL & MARQUET Produkte (ARSTYL®, WALLSTYL®, NOMASTYL®)
- **Unsere NOËL & MARQUET Sockelleisten sind mit dem deutschen Qualitätssiegel „Blauer Engel“ als emissionsarme und gesundheitlich unbedenkliche Produkte ausgezeichnet worden.**

Nous agissons de manière responsable |

En tant qu'entreprise familiale, NMC a toujours agi de façon responsable vis-à-vis des générations futures. Prenant conscience de l'efficacité énergétique, du développement durable et de la protection du climat, nous nous assurons que chaque phase de développement, de production et de distribution des éléments décoratifs NOËL & MARQUET soit contrôlée et optimisée dans un souci de respect de l'environnement :

- L'énergie provient de nos propres installations photovoltaïques et est 100 % verte.
- Nous recyclons environ 100% des déchets de production dans nos propres installations.
- Des circuits fermés réduisent la consommation d'eau au minimum.
- Le groupe est certifié ISO 14001 - la norme internationale en matière de systèmes de gestion environnementale.
- Déclaration de produit BREEAM pour tous les produits NOËL & MARQUET (ARSTYL®, WALLSTYL®, NOMASTYL®)
- **Nos plinthes NOËL & MARQUET ont obtenu le label environnemental allemand « Blauer Engel » en tant que produits à faible émission et sans danger pour la santé.**

Wij nemen onze verantwoordelijkheid |

Als familiaal bedrijf heeft NMC er altijd over gewaakt om zijn verantwoordelijkheid te nemen tegenover de toekomstige generaties. Dit streven naar energie-efficiëntie, duurzaamheid en klimaatbescherming steunt

op de controle en optimalisatie van de milieukwaliteit in elke fase van de ontwikkeling, productie en distributie van de NOËL & MARQUET design-elementen:

- De energie is afkomstig van een eigen installatie zonnepanelen en bijgevolg 100% groen.
- Afval wordt voor bijna 100% teruggewonnen in de eigen recyclage-installatie.
- Gesloten circuits beperken het waterverbruik tot een minimum.
- De groep beschikt over het ISO 14001-certificaat, de internationale norm inzake milieubeheersystemen.
- Alle NOËL & MARQUET producten (ARSTYL®, WALLSTYL®, NOMASTYL®) zijn voorzien van de BREEAM product declaratie.
- **Onze plinten van NOËL & MARQUET werden bekroond met het Duitse kwaliteitslabel "Blauer Engel", omdat het product emissiearm is en de gezondheid niet in gevaar brengt.**

CORNICES

DECKENLEISTEN

MOULURES DE PLAFOND

PLAFONDLIJSTEN

Create a completely new spatial effect with our cornices. They create an elegant and aesthetic transition between walls and ceilings. The spatial effect can vary depending on the cornice and the mounting. Cornices – many of which are for that matter suitable for the integration of direct or indirect lighting – can moreover be used to conceal unsightly transitions, cracks and smaller cables.

Gestalten Sie individuelle Räume mit unseren Deckenleisten. Sie bilden einen eleganten und ästhetischen Übergang zwischen Wand und Decke. Die Raumwirkung kann je nach Deckenleiste und Anbringung variieren. Mit Deckenleisten – von denen eine Vielzahl übrigens auch zur Integration direkter und indirekter Beleuchtung geeignet sind – lassen sich zudem unsaubere Übergänge, Risse und kleinere Kabel kaschieren.

Grâce à nos moulures de plafond, vous pouvez changer à volonté l'ambiance de votre espace intérieur. Elles forment une transition esthétique et élégante entre le mur et le plafond. L'impression d'espace varie selon le profilé et la disposition de la moulure. Les moulures de plafond, dont beaucoup conviennent à l'intégration d'un éclairage direct et indirect, vous permettent aussi de dissimuler les passages, fissures et petits câbles inesthétiques.

Met onze plafondlijsten wijzigt u de sfeer in uw interieur zo vaak als u het wenst. Ze zorgen voor een esthetische en elegante overgang tussen muur en plafond. Het ruimtelijk effect verandert volgens het profiel en de plaats van de lijsten. Onze plafondlijsten zijn vaak geschikt voor het inbouwen van directe en indirecte verlichting. Bovendien zijn ze ideaal om minder esthetische vlakovergangen, barsten en kleine kabeltjes handig aan het oog te onttrekken.

WANDLIJSTEN

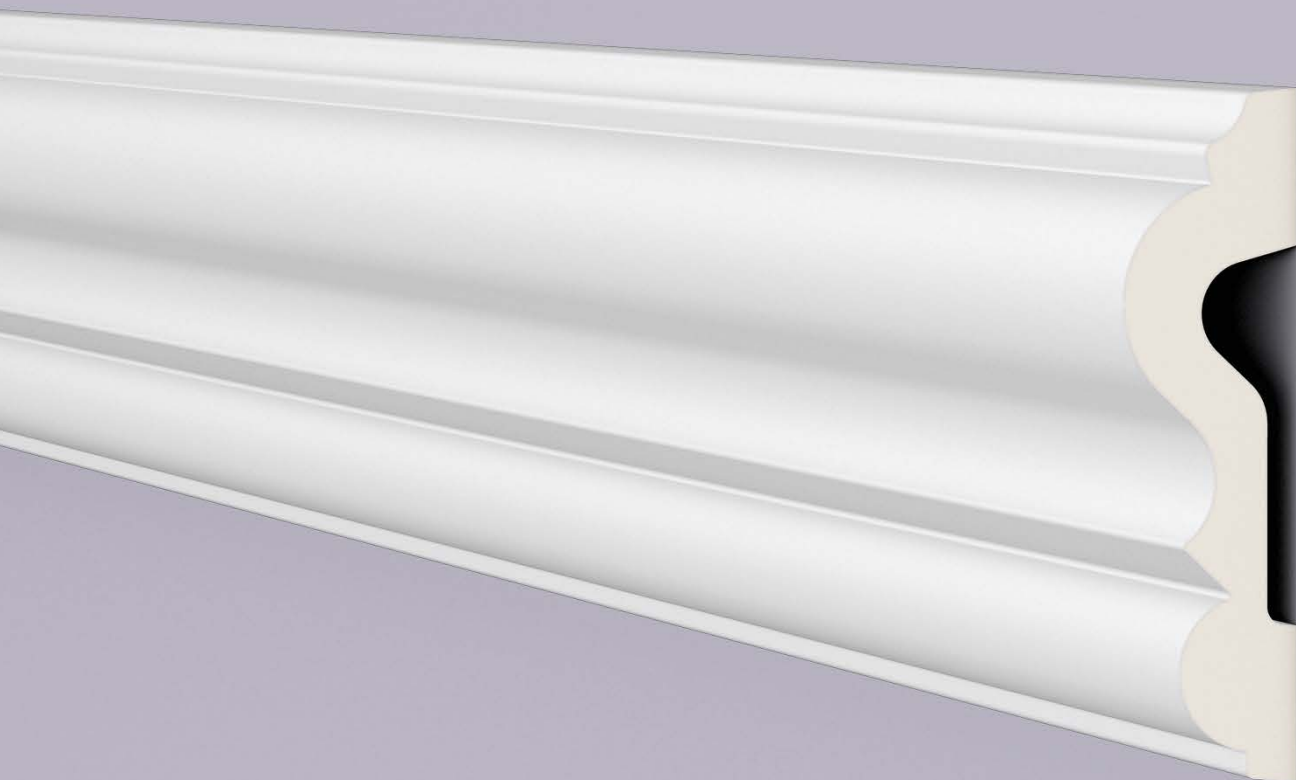

The versatile panel mouldings from NOËL & MARQUET decorate, shape and embellish your walls by framing, outlining and dividing into fields. They are light and easy to install. Thanks to a primer, they can be painted over immediately and provide excellent protection against shocks thanks to their high material density.

Die vielseitigen Wandleisten von NOËL & MARQUET verzieren, gestalten und verschönern Ihre Wände durch Einrahmungen, Abgrenzungen und die Unterteilung in Felder. Dabei sind sie leicht und einfach zu installieren. Dank einer Grundierung sind sie sofort zu überstreichen und bieten durch Ihre hohe Werkstoffdichte einen hervorragenden Stoßschutz.

Les différentes cimaises de NOËL & MARQUET ornent, structurent et embellissent vos murs par des encadrements, délimitations et compartimentages. Elles sont faciles à installer. Grâce à l'application d'une couche de primaire en usine, vous pouvez les peindre immédiatement. Par ailleurs, la forte densité du matériau vous offre une excellente résistance aux chocs.

De wandlijsten van NOËL & MARQUET versieren en verfraaien uw muren en geven er structuur aan met omlijstingen, afbakeningen en indelingen. Ze zijn gemakkelijk te installeren. PLINTHES AVEC PEINTURE DE FINITION

GELAKTE PLINTEN

Finished skirtings are particularly suitable for bigger projects. The profiles are factory finished in RAL 9016 (white), the colour most frequently used for walls.

Les plinthes avec peinture de finition conviennent tout particulièrement aux projets de grande envergure. Elles sont pré-peintes en usine en couleur RAL 9016 (blanc), la couleur murale la plus fréquente.

Endbeschichtete Sockelleisten eignen sich besonders für größere Projekte. Die Leisten sind werkseitig in RAL 9016 (Weiß), die am häufigsten verwendete Wandfarbe, beschichtet.

Plinten met een afwerkingslaag zijn vooral bedoeld voor grootschalige projecten. Ze zijn in de fabriek al geschilderd in RAL 9016 (wit), de meest voorkomende kleur voor wanden.

OVERZETPLINTEN

With our cover skirtings, renovations become simple:

old profiles and tiles are easily covered without having to resort to expensive prior removal – a big relief.

Grâce à nos surplinthés, la rénovation devient un jeu

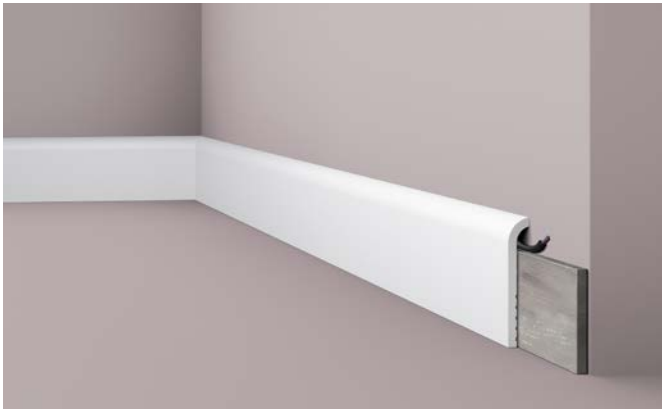

d'enfant : elles vous facilitent considérablement le travail, en vous permettant de recouvrir simplement vos anciennes plinthes en bois et en carrelage, au lieu de devoir les enlever au préalable, ce qui s'avère souvent fastidieux !

Mit unseren Abdecksockelleisten werden Renovierungen

zum Kinderspiel: alte Leisten und Fliesen werden einfach überdeckt ohne diese vorher aufwändig entfernen zu müssen.

Renovatie wordt kinderspel met onze overzetplinten:

u laat de bestaande plinten en tegels gewoon staan en vermijdt zo het vervelende werk om alles vooraf te verwijderen. Wij maken het u dus gemakkelijk!

FUNCTIONELE PROFIELEN

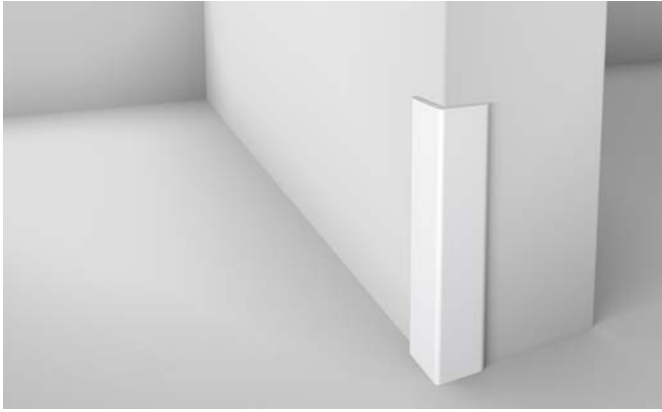

These functional profiles are significantly more suitable than conventional solutions for cladding ducts, pipes, etc.

Deutlich schneller als herkömmliche Lösungen eignen sich diese funktionalen Leisten zum Verkleiden von Leitungen, Röhren usw.

Nettement plus rapides à mettre en œuvre que les solutions conventionnelles, les profilés fonctionnels conviennent comme recouvrements de tuyaux, conduits, etc.

Onze functionele profielen laten zich veel sneller aanbrengen dan de traditionele oplossingen. Bijvoorbeeld om buizen en andere leidingen onzichtbaar weg te werken enz.
